PROFESSIONAL EXPERIENCE

Web Developer

Elixir Solutions - Brussels | 04/2025 - current

- Responsible for designing and implementing data synchronization solutions between HubSpot and third-party software platforms. Develop and maintain internal automation tools to optimize workflows.

Recent projects:

- Designed and developed from scratch an internal TypeScript/JavaScript automation tool to generate invoices by synchronizing data between Teamwork and Odoo, improving efficiency and reducing manual effort.
- R&D project to build an AI agent integrated with HubSpot to analyze upsell/cross-sell opportunities and churn risk using Spring and Mistral AI.
- Developed custom JavaScript integration logic for a Dutch customer to synchronize data between HubSpot / DealHub and the customer's internal systems.
- Migration of the ElixirSync integration from SAP C4C v1 to SAP C4C v2

Web Developer

KPMG Business Services - Milan | 04/2021 - 04/2025

- Development and maintenance of full stack web applications using React, JavaScript, and Java.
- Coordination of team activities, promoting best practices and meeting deadlines.
